Video Loan Process

The Michigan Department of Labor and Economic Growth, Michigan Occupational Safety and Health Administration (MIOSHA), Consultation Education and Training Division CET), provides training video loan services through the following division:

MIOSHA Videos
7707 Rickle Street, P.O. Box 30677
Lansing, Michigan 48909-8177

E-Mail: mioshavidoes@michigan.gov or
Fax No. (517) 322-3219
Telephone (517) 322-2633

- There are no user fees assessed for the use of the training videos borrowed. However, the borrower is responsible for items borrowed and for paying the return shipment and insurance cost via an express package service. As the materials are loaned under special permission from vendors, it is strictly forbidden to copy and distribute these materials.
- All requests are handled on a first-come-first-served basis. Requests must be received at least 15 working days (Monday through Friday) in advance of the date by which the borrower needs the videos.

- Requests should be made directly to LESS at the above address. Use the order form provided at the end of this catalog. The shipping address given must be other than a post office box because shippers will not deliver materials to a post office box.
- Reservations may not be made more than six months in advance of the showing date.
- There is a limit of three items which can be borrowed for any one show date.
- There is a ten-day loan period limit with extensions granted by the lending agency when appropriate. Items in demand by other requestors may not be extended. Borrowers who do not return materials on time will receive a written reminder. Borrowing privileges will be cancelled after the third late return.
- A borrower who does not return materials or who returns materials incomplete or damaged will be billed for the cost of replacing the missing/damaged items. Replacement costs for an item are determined by the actual cost of replacing the item. Failure to pay for replacement will lead to cancellation of borrowing privileges.
- When returning videos, they must be addressed to the street address below:
 MIOSHA
 Management and Technical Services Division (MTSD)
 Laboratory and Equipment Services Section (LESS)
 7707 Rickle Street, P.O. Box 30677
 Lansing, Michigan 48909-8177
- Questions regarding this training video lending service may be directed to:
 Michigan Department of Labor and Economic Growth
 Consultation Education and Training Division
 7150 Harris Dr., P.O. Box 30643
 Lansing, Michigan 48909-8143
 (517) 322-1809

Explanation of Abbreviations

ALPHABETICAL LISTING

A BIT ABOUT BACKS	700	CC/	VHS/DVD
40:00 minutes			
Covers back basics, risk factors and prevention strategies. Focuses, in a humorous way, on back care in day-to-day living - on and off the job. Will help employees understand how their backs work and how to make choices to protect themselves from injury.			
A CALL FOR DR. REDD	680		VHS
24 minutes			
A-B-C-Ds OF SAFETY, THE	871		VHS
ACCIDENT INVESTIGATION IN THE WORKPLACE	696		VHS
22:00 minutes			
Takes viewers step-by-step through investigation procedures used by experts to discover the true causes of accidents.			

ACCIDENT INVESTIGATION:

MAKE YOUR INVESTIGATION COUNT	517	VHS
11:00 minutes Covers proper accident investigation. How to interview witnesses, understand causes of work accidents and write concise reports.		
AERIAL LIFT SAFETY	729	CC/Sp/VHS/DVD
14:30 minutes Training program for all employees who operate or work around aerial lifts. Real-lift in chemical and manufacturing facilities, refineries, and municipalities. Subjects include pre-operation inspection; preparing the work site; vehicle stabilization and traveling; safe work practice on platforms; and working near electrical lines.		
AIDS PREVENTION FOR NURSING PROFESSIONALS	853	CC/ VHS
25:00 minutes. Produced in 1988. You will learn from this video what your own risk is in caring for patients potentially carrying HIV and how to reduce this risk to an absolute minimum.		
AIR PURIFYING RESPIRATORS	231	VHS
18:48 minutes Designed to provide an overview of respiratory hazards in the workplace and to demonstrate when an air purifying respirator (APR) needs to be worn and how to use it properly. Details evaluation and control of hazardous atmospheres and correct selection of respirators as it relates to the hazard. Fit testing, donning, care and maintenance are demonstrated.		
ALCOHOL & OTHER DRUGS	527	VHS
4:00 minutes		
AMERICA IN JEOPARDY: DRUGS IN THE WORKPLACE	739	CC/ VHS
20:00 minutes This video can be an important part of the turn around process. See and listen to workers talk about the devastating effects of substance abuse on job performance and how it affects co-workers. This video can help concerned employers help their employees.		
ARC WELDING SAFETY	518	VHS
21:00 minutes Covers “do’s & don’ts” for safe use of arc welding equipment.		
AROUND EVERY CORNER	666	VHS
14:00 minutes Conducting planned safety inspections. A new supervisor learns that regular inspections can mean the difference between a safe environment and a place where accidents are waiting to happen.		
AS IT SHOULD BE DONE: WORKPLACE PRECAUTIONS AGAINST BLOODBORNE PATHOGENS	233	VHS
24:10 minutes		

A popular video for the healthcare worksite which assists employers in training exposed employees in OSHA's bloodborne pathogens standard. Includes the proper use of personal protective equipment and the benefits of the HBV vaccine.

ATMOSPHERE SUPPLYING RESPIRATORS	219	VHS
15:40 minutes		
Describes the basic types of air line and SCBA respirators and illustrates advantages and limitations. Emphasizes proper donning procedures, fit checks, use and maintenance.		
ATTITUDE AWARENESS	674	VHS
27:00 minutes		
Helps employees to identify how their attitude affects their job performance, especially safety performance. Four employees recognize the responsibility they each hold for their own actions.		
ATTITUDE AWARENESS (2007)	944	
AVOIDING ELECTRICAL HAZARDS	867	VHS
19 minutes		
B-A-C-K POSTURE, MECHANICS, & EXERCISE	845	VHS
19 minutes		
BACKHOE SAFETY	698	CC/ VHS/DVD
18:00 minutes		
Provides a general guideline for safely operating a backhoe. The appropriate personal protective equipment, pre-start-up checklist, safe start-up procedures, safe loading and unloading steps, safe digging and lifting and on the road safety are explained and illustrated.		
BACK IN STEP	885	CC/ DVD
50:00 minutes		
Provide your employees with a tool that gives them the information they need to take care of their injured backs. "Back in Step" is a motivational program created to help people recovering from back problems "make it through the day." An effective tool to give to each employee suffering from an acute injury.		
BACK INJURY PREVENTION: YOU'RE IN CONTROL	861	CC/ VHS
16:30 minutes		
Back injuries can affect any industry, any company, any person and their family. Learn how the back works, risk factors, common injuries, posture, lifting, physical condition, stretches, and exercises.		
BACK SAFETY: LIFT WELL, LIVE WELL	914	CC/ VHS/DVD
15:00 minutes		
Remind your employees that it's far better to take care of their backs before pain sets in with this valuable program. It teaches workers how to "head off" back pain by using their heads and always being aware of how to protect their backs from injury, through careful lifting and invigorating exercise.		
BACKS, A BIT ABOUT	700	CC/ VHS/DVD

40:00 minutes

Covers back basics, risk factors, and prevention strategies. Focuses, in a humorous way, on back care in day-to-day living, on and off the job. The modules will help employees understand how their backs work and how to make choices to protect themselves from injury.

BLOODBORNE PATHOGENS: A SHARPER IMAGE

238

VHS

19:00 minutes

BLOODBORNE PATHOGENS: FOR EMERGENCY

130

VHS

23:00 minutes

Fulfills many of the annual employee training requirements including understanding your exposure control plan, recognizing unsafe situations, emergency procedures, signs and labels, personal protective equipment selection and use, and information on HBV vaccine. This video is specifically geared toward EMS.

BLOODBORNE PATHOGENS: PRISON VERSION

852

VHS

10:00 minutes

BLOODBORNE PATHOGENS: SCHOOL VERSION

232

VHS

10:45 minutes

Though the risk of exposure may be low, the consequences can be high. Everyone needs to understand how the disease is transmitted and the use of universal precautions. Specifically designed for industrial workers and emergency response teams, this school version video for grades K-12 covers:

- Bloodborne pathogens
- Modes of transmission
- Exposure situations
- Proper cleanup of spilled body fluids
- Universal precautions

BLOODBORNE PATHOGENS: TAKE PRECAUTIONS

921

CC/Sp/

DVD

13:00 minutes

This valuable program teaches employees to protect themselves from bloodborne pathogens by learning about the three types of viruses and how they spread, plus what they can do to prevent infection, from avoiding exposure to blood to cleaning up after accidents occur.

BONDING & GROUNDING OF FLAMMABLE LIQUID

710

VHS

9:09 minutes

Explanation of the need for proper grounding during the transfer of flammables, basic discussion of static electricity and the hazard it creates. Ensure employees understand how bonding and grounding eliminate electric potential and remind them of the proper pre-transfer steps.

CARE AND USE OF APR'S (Revised)

217

CC/Sp/VHS/DVD

13:00 minutes

Explains how to use and maintain air purifying respirators correctly. Workers will understand the reasons for accurate fit testing and the importance of inspecting and fit checking a respirator before each use.

CARPAL TUNNEL SYNDROME: THE “KEY METHOD” OF PREVENTION	550	VHS
15:00 minutes For supervisors, aimed specifically at prevention before the fact. Supervisors are acquainted with the concept of look, listen and take action to prevent trauma disorders.		
CAVE-IN RESPONSE	690	VHS
This video trains your personnel how to respond safely to a cave-in and not become a victim. This video will show you how to safely respond to and report a trenching emergency and the steps a rescue team uses to perform a safe rescue.		
CHARLIE ANSWERS THE TOUGH QUESTIONS	810	VHS
23:00 minutes Charlie answers the questions that are on everyone’s mind: <ul style="list-style-type: none"> • What do you think about firing people for safety violations? • What would have made you wear your safety equipment? • Wasn’t the company responsible? By addressing these and other issues openly and honestly, Charlie puts an end to the “blame game” and changes attitudes toward safety.		
COLOR OF SAFETY, THE	504	VHS
26:30 minutes Completely up-to-date version of The Color of Danger. This lift truck safety video is a guide for both experienced and new lift truck operators. Learn safe methods of operation, hazards and what to do in the event of a tip-over.		
COMPRESSED GAS CYLINDERS	758	CC/Sp/ DVD
14:45 minutes Improper handling of compressed gas cylinders can cause devastating damage and severe injuries. Educate your employees on the proper handling of compressed gas cylinders with an increased awareness and respect for the hazards associated with compressed gas cylinders. This video covers: <ul style="list-style-type: none"> • Potential hazards • Pre-use inspection and testing • Best safety practices for handling and use • Proper storage and transportation 		
CONFINED SPACE CASE HISTORIES	725	CC/Sp/ DVD
14:00 Minutes Reenactments of real-life confined space accidents emphasize the importance of following proper confined space safety procedures. Topics include: safety atmospheric testing and monitoring; training the entry team; ventilation; personal protective equipment; and reviews what went wrong and accident prevention.		
CONFINED SPACE ENTRY PERMIT REQUIRED	848	CC/ VHS
21 minutes		

Protect your workers from the dangers of working in a confined space. This video reviews the details on how to prepare a confined space entry permit and the best way to train a confined space entry team.

CONFINED SPACE RESCUE: A JOB FOR PROFESSIONALS

145 CC/ VHS

16:00 minutes

Interviews employees involved in a confined space fatality. Explains the hazards and motivates employees to call for a properly trained rescue team.

CONSTRUCTION SAFETY ORIENTATION

786 CC/Sp/VHS

19:00 minutes

On construction sites many variables can cause accidents and injuries, this program is ideal for anyone who works at a construction site. This video conveys four key principles to all construction workers:

- Analyze the work area and the job to be performed.
- Recognize and respect hazard warning signs and labels.
- Identify and eliminate or control any potential hazards.
- Remain aware of all activity taking place around you.

This program covers a variety of construction related safety topics including: Electrical hazards, Excavations, Fall Protection, Hazard Recognition, Hazardous Materials Safety, Hoists and Slings, Hot work, Housekeeping, Ladder Safety, PPE, Scaffolding Safety, Vehicle Traffic.

CONTRACTOR SAFETY CONSTRUCTION WORKERS

787 VHS

16:00 minutes

You are responsible for the safety of contract workers at your site. Training with this program will help reduce the risk to your contract workers and your bottom line. This video talks about: Safety responsibilities of construction workers, Potential hazards commonly found in construction work environments and How to recognize hazards that may pose a risk.

NEW -

CRANE RIGGING SAFETY

932 CC/ DVD

16 minutes

In this video, you will learn how to rig a safe lift. This includes selecting slings and hitches, setting up the rigging, and stabilizing the load.

CRANE SAFETY: OVERHEAD CRANES

728 VHS

18:00 minutes

Prevent injury and equipment loss by training workers to safely work with and around cranes. Inspections, pre-lift considerations, safe operating and lifting techniques are covered. Other topics include gantry and E.O.T. pre-operation inspection and, slings, hood and magnets.

CRANE SAFETY: OVERHEAD OPERATIONS

909 CC/Sp/ DVD

18:30 minutes

Facilitator's guide included.

Crane incidents are nearly always serious accidents with catastrophic and costly consequences. Ironically, most crane incidents are preventable. Overhead Operations covers different types of cranes, pre-operation inspections, hand and light signals, and weight capacity.

CRAWLER EXCAVATOR SERIES: SAFE OPERATING TECHNIQUES	736	VHS
23 minutes Help operators understand the importance of: <ul style="list-style-type: none"> • thorough daily walk-around inspection • correct use of the operators manual • housekeeping & the effect on safety • testing control functions • variations in controls from model-to-model and make-to-make. 		
CRIME PREVENTION	522	VHS
4:42 minutes		
CRISIS MANAGEMENT: REDUCING THE IMPACT OF WORKPLACE TRAUMA	872	VHS
35 minutes ©1977 Traumatic events at work effect employees, witnesses, coworkers, customers, family members and employers. The critical event could be anything from a fellow worker having a heart attack to an industrial accident to a natural disaster to a terrorist attack. Your crisis management and recovery program can greatly reduce the impact of traumatic events. Being prepared and having your plan in place helps everyone in your organization understand how to reduce the trauma and put your company back on course.		
DAN PETERSEN'S SAFETY MANAGEMENT SERIES (2007) (2 TAPES)	945	CC/Sp/VHS/DVD
DANGER ZONE: LOCKOUT TRAGEDY	773	CC/ VHS
16:00 minutes This video retells the tragic story of Michael Fitch, a worker who lost his life in an avoidable on-the-job accident involving improper lockout procedures. It emphasizes the importance of following safe work practices.		
DANGER ZONE: PERSONAL PROTECTIVE EQUIPMENT	865	VHS
12:30 minutes		
DAY OF THE KILLER TORNADOES	606	VHS
27:00 minutes Gripping story of the day that 147 deadly twisters swept across Ohio, Kentucky and Alabama. How advanced preparation can help save lives.		
DEFENSIVE DRIVING: PREPARED FOR THE WORST	708	CC/Sp/VHS/DVD
18:00 minutes How to deal with road hazards, poor weather condition, vehicle collisions and crime. Shows how to stay in control by being prepared for the worst. Topics: Nature's forces, Night driving, Breakdown basics, Accidents, Road construction, and Personal security.		
DISTRACTED DRIVING: AT WHAT COST	834	CC/ VHS/DVD
15:00 minutes		

There's a lot of talk about this issue but most of us don't realize how often we're distracted while driving. A new study shows that up to 50% of crashes involve some sort of driver distraction. This new video helps us become aware of this increasingly dangerous behavior. The video includes a two car crash that is investigated and shows how each driver was distracted leading up to the crash. It also includes an interview with a woman who was severely injured in a crash caused by a distracting cell phone conversation. Her parents also talk about how their entire family's lives were changed by the crash.

ELECTRICAL SAFETY: DOWN TO THE WIRE

663

VHS

30:00 minutes (8:00-12:00 minutes each)

Three quick running videos on one cassette designed to help kick off safety meetings, stimulate discussions and get points across quickly.

ELECTRICAL SAFETY

775

VHS

10:21 minutes

This video covers electrical safety procedures that will help you comply with OSHA's Electrical Safety Standard. It will introduce workers to the principles of electricity, show them how to avoid the dangers of electrical shock and demonstrate the correct responses to electrical emergencies. The following topics are covered:

- Electrical principles
- Electrical hazards
- Engineering controls
- Safe work practices
- Real-Life Situation

ELECTRICAL SAFETY: HIGH VOLTAGE AWARENESS

734

VHS

16:20 minutes

Working with 600 volts of electricity and higher. Understand the potentially destructive force of working with high voltage electricity. Learn the hazards associated in working with or around electricity. Graphics show lightening blowing up a substation. Covers the proper use of personal protective equipment, the use of general protective equipment, grounding equipment, gloves and hot sticks.

ELECTRICAL SAFETY: HIGH VOLTAGE SAFE WORK PRACTICES

735

VHS

14:51 minutes

Working with 600 volts of electricity and higher. Step by step importance of lockout/tagout procedures, emphasizing the importance of following an established safety plan initiating safe work practices. Policy requirements and emergency procedures are explained in detail.

EMERGENCY PLAN/FIRE PREVENTION

526

VHS

7:25 minutes

Discusses areas of primary concern for fire prevention, outlines procedures for location and operation of fire extinguishers, lists elements of emergency response plan. Illustrates emergency response drill.

ERGONOMIC MANAGEMENT SERIES: ADMINISTRATIVE CONTROLS

829

VHS

7:30 minutes

Covers the elements necessary for continuous improvement, ergonomic principles and action plans, as well as, the importance of cost/benefit analysis, communication and teamwork.

**ERGONOMIC MANAGEMENT SERIES:
ERGONOMIC OVERVIEW**

826 **VHS**

7:00 minutes

Covers the principles of ergonomics, benefits of an ergonomic program and OSHA's ergonomic guidelines.

**ERGONOMIC MANAGEMENT SERIES:
JOB HAZARD ANALYSIS**

828 **VHS**

15:45 minutes

Provides criteria for selecting the task and worker for analysis, explains how to collect and analyze the data, and includes videotaping techniques for best results.

**ERGONOMIC MANAGEMENT SERIES:
QUALITATIVE ANALYSIS**

827 **VHS**

8:10 minutes

Demonstrates administering body discomfort charts and ergonomic checklists, with techniques for proper collection of data. An important step in identifying ergonomic related issues that will need to be addressed.

ERGONOMICS IN THE WORKPLACE

685 **VHS**

18:00 minutes

Ergonomics as it is practiced by workers and supervisors. How to spot and correct work station design and worker postures to keep workers healthy and productive.

ERGONOMICS: "PREVENTING MSDs"

825 **CC/ VHS**

17:00 minutes

When you train with this video, your workers will learn what musculoskeletal disorders are and measures they can take to reduce their exposure to risk factors and prevent injury.

**ERGONOMICS: "PREVENTING MSDs"
SUPERVISORS MODULE**

838 **CC/ VHS**

16:25 minutes

When you train with this video, your workers will learn what musculoskeletal disorders are and measures they can take to reduce their exposure to risk factors and prevent injury.

NEW-

EXCAVATIONS: SAFE WORK ESSENTIALS

936 **CC/Sp/ DVD**

15:30 minutes

When the walls of your excavation fail, it can be a disaster. Though it is one of the most dangerous job tasks, countless excavations are performed each day. In fact, at least three people are killed every month in the United States from excavation-related accidents. This DVD explores:

- What are excavations?
- Potential hazards
- Protective measures

- Safe work practices.

EXCAVATIONS, TRENCHES AND SHORING **726** **VHS**

13:30 minutes

Personnel who work in or around excavations and trenches need to be aware of the hazards and how to prevent cave-ins and other accidents. This video will demonstrate an overview of protective systems, regulatory requirements, and safe work practices.

EXPOSURE CONTROL: BLOODBORNE PATHOGENS **136** **VHS**

95:00 minutes

This program is a multimedia program which includes a video, workbook and audio program. It gives a background of the regulation, describes the elements of an exposure control plan, how to make an exposure determination, how to develop Standard Operating Procedures, housekeeping requirements, personal protective equipment selection and use, the HBV vaccination program, and post exposure follow-up.

EXTREME DRIVING QUIZ **929** **VHS/DVD**

46 minutes

Will you know what to do if your car is submerged in water, you see a car coming straight at you, or you experience a rollover? This video lets you decide the best answers for these and other extreme driving situations.

EYE SAFETY **878** **CC/** **DVD**

12:00 minutes

This video delivers important information on eye protection with a unique emphasis on personal responsibility. The viewer is provided with three steps to eye safety that are extremely easy to relate to and understand. Interviews with "real" people who would have lost their eyesight if they hadn't been wearing eye protection provide powerful reinforcement for safe behavior.

EYE SAFETY: NO SECOND CHANCES **907** **CC/Sp/** **DVD**

20:45 minutes

Facilitator's guide included.

Prevent disabling eye injuries at your workplace by training with "Eye Safety: No Second Chances". Training workers to properly select and use the right eye protection works best when it also motivated workers to consistently use the equipment. The program features scenes from a variety of job sites that show several situations where eye protection is needed and used correctly. Your workers will develop a respect for eye protection and understand the life-long consequences from not using adequate eye protection.

FALL ARREST SYSTEMS **795** **VHS**

15:00 minutes

This video shows viewers how to properly select and use personal fall arrest systems so they can work safely above ground. Topics include forces involved in falls, components of a fall arrest system, inspection of the equipment, calculating fall distance, selection of an appropriate connecting device and the importance of choosing a legal tie-off point.

NEW-

FALL PROTECTION – IT'S NO GAME **933** **CC/** **DVD**

15 minutes

Stay safe on the construction worksite with this comprehensive program. Major danger zones are identified, such as open-sided platforms, leading edges, and openings in floors and walls. Also discusses conventional safety systems, including guardrails and personal fall arrest systems. Suggestions for alternative safety procedures when working with floor joists, floor sheathing, exterior walls, roof trusses, roof sheathing and shingles, and foundations are covered.

FALL PROTECTION 9:57 minutes	842	VHS
FALL PROTECTION 11:15 minutes <i>Facilitator's guide included.</i>	906	CC/Sp/ DVD
FALL PROTECTION: PART 3 9:45 minutes Examines specialized fall protection systems and other methods to reduce exposures to falls, particularly where conventional systems may not work. Attention is given to positioning device systems, zones, safety monitoring systems, and roofing brackets.	788	VHS
FALL PROTECTION: PART 4 10:25 minutes Focuses on major changes made by OSHA and reviews the technical details of the federal standards. The tape focuses on when fall protection is required, exceptions, fall protection plants, inspection requirements, training and education, certification, and emergency response.	789	VHS
FALL PROTECTION: PERSONAL FALL PROTECTION 22:00 minutes Explains the differences between fall restraint and fall arrest; requirements for lanyards, anchorages and body support; how to avoid common hazards; procedures for care and inspection of equipment.	507	VHS
FALL PROTECTION: TAKING CONTROL 11:00 minutes Will assist in training employees to recognize and respect potential fall hazards in work place, and provide understanding of proper use and care of personal fall protection equipment. Also discusses the importance of a proactive safety attitude in preventing work place falls.	502	VHS
FIRE PREVENTION 12:00 minutes This program presents video of real fire fighting situations, and educates workers on how to identify potential fire sources, as well as steps to take to prevent fires from happening in the first place. The video also teaches workers to operate a wide variety of fire extinguishers and how to assist in the event a fire develops. Other topics include: <ul style="list-style-type: none"> • Proper handling and storing of flammable liquids • Evacuation procedures • Fire prevention measures • Good housekeeping • Best safety practices 	815	CC/ VHS

FORKLIFT FUNDAMENTALS (2 TAPES)	759	VHS
18 minutes		
FORKLIFT FUNDAMENTALS: GET THE FACTS	847	CC/Sp/VHS/DVD
21:00 minutes		
Familiarize your workers with the basics of safe forklift practices with this enlightening program. Topics include: Powered industrial trucks, power plant inspections, and equipment inspections.		
FORKLIFT OPERATOR TRAINING	897	CC/ DVD
17:00 minutes		
When forklifts are used incorrectly, the resulting accidents can injure or kill operators and pedestrians and cause tremendous property damage. To prevent these accidents, operators must know, understand and follow all safe work procedures. This is precisely the reason OSHA issued its Powered Industrial Truck Standard. The standard requires a training program that focuses on driver knowledge and operation of the vehicle. This video details the training points contained in the standard.		
FORKLIFT OPERATIONS: CARRY THE LOAD	916	CC/Sp/ DVD
20:00 minutes		
Reduce the risk of forklift accidents with this valuable program. Topics covered include: Operating conditions, Vehicle and pedestrian traffic, Special Hazards, and Proper load manipulation.		
FORKLIFT SAFETY: BASIC ORIENTATION	904	CC/Sp/ DVD
12:00 minutes		
<i>Facilitator's guide included.</i>		
Covers pre-operation procedures to ensure your forklifts are "good-to-go". Includes: pre-operation inspection, safe operation, and the parts of a forklift.		
FORKLIFT SAFETY: BEST OPERATING PRACTICES	859	CC/Sp/VHS/DVD
12:00 minutes		
<i>Facilitator's guide included.</i>		
Best safety practices for moving loads throughout the work environment – through different conditions, surfaces, and around obstacles. Topics include hazard awareness, pedestrian traffic, load handling techniques, stability triangle, and driving skills.		
FORKLIFT SAFETY: OPERATING SAFELY	633	VHS
20:00 minutes		
Addresses safe forklift operation as a way of avoiding product and equipment damage and personal injury. Potential hazards are shown and rules of safe operation are demonstrated.		
FORKLIFT SAFETY: OPERATION	514	VHS
20:00 minutes		
Designed to inform employees of the procedures to follow when operating a forklift. Demonstrates capabilities of the truck, carry a load properly, and safe driving skills.		
FORKLIFT SAFETY: REFUELING PROCEDURES	903	CC/Sp/ DVD
12:00 minutes		
<i>Facilitator's guide included.</i>		

Covers the basics of all power sources for forklifts and best safety practices for refueling. Safe removal and recharging of batteries, best safety practices for fuel-powered forklifts, and PPE are all covered in this video.

FORKLIFT SAFETY: THE RESPONSIBLE OPERATOR **805** **Sp/VHS**
(Spanish Version Only)

Facilitator's guide included.

11:30 minutes

Designed to inform employees of the procedures to follow when operating a forklift.

Demonstrates capabilities of the truck, carry a load properly, and safe driving skills.

FORKLIFT STABILITY ESSENTIALS **883** **CC/** **DVD**

18:00 minutes

Every year people are injured and killed in incidents involving forklifts. Forklift stability is a major factor in many accidents. Collisions, rollovers and damaged goods are just some of the results of forklift operators not understanding forklift stability.

GENERAL ELECTRICAL PRINCIPLES **892** **CC/** **DVD**

17:00 minutes

Electricity is so common in our lives that we often take it for granted, causing us to disregard its power. In fact, every year more than 1,000 people are killed and another 30,000 are injured in electrical mishaps. We need to know what electricity is and how it works in order to use it safely.

GETTING OUT ALIVE **702** **CC/** **VHS**

18:00 minutes

Managers, supervisors and employees can enhance their knowledge of fire emergency procedures with this new video. It includes vital information about developing an emergency evacuation plan or training employees about an existing plan.

GETTING THE FACTS: ACCIDENT INVESTIGATION **544** **VHS**

18:00 minutes

Covers important points in accident prevention - a successful investigation of accidents.

NEW-

GOOD BACK, BAD BACK **934** **CC/** **DVD**

20:00 minutes

Quickly and effectively teach your employees positive back protection behavior. Use this energetic, memorable approach that all viewers will understand and be motivated to implement at work, and at home. The program teaches four simple, memorable tips: Preserve the Curves, Build a Bridge, Keep It Close, and Lock & Lift.

GRAIN ELEVATOR HOUSEKEEPING **531** **VHS**

6:17 minutes

Summarizes cause of grain elevator explosions; neglect of day-to-day housekeeping; points out critical dust area. Illustrates the need for written housekeeping program; and describes regularly scheduled inspections needed to avoid explosion.

GRINDER & ABRASIVE WHEEL SAFETY **709** **VHS**

14:00 minutes

Avoid dangerous disintegration of wheels and encourage safe use of equipment. Abrasive wheel storage, inspection, mounting, use. Portable and bench grinders: safety tips, storage, use, PPE and maintenance.

GROUNDKEEPING SAFETY: BE A PRO

705

VHS

17:00 minutes

Teaches how to avoid unnecessary accidents by thinking: safe? or sorry? Topics include: personal protective equipment, general checklist for safety, tractors, riding mowers and push mowers, trim and brush-cutting equipment and blowers, checklist for hazardous materials.

HAND INJURY PREVENTION - IN TOUCH WITH SAFETY

699

CC/Sp/VHS/DVD

16:20 minutes

Explains the potential hazards to which hands are exposed every day. Trains workers to avoid hand injuries and reduce associated costs of lower productivity and insurance claims.

NEW-

HAND AND POWER TOOL SAFETY

931

CC/Sp/ DVD

19:45 minutes

Facilitator's Guide included.

Because we use hand and power tools on a regular basis, many workers forget the potential hazards. This program puts safety at the forefront of common tasks. Carelessness, poor housekeeping and misuse often lead to accidents and injuries that range from cuts and bruises to amputations.

HAZARD COMMUNICATION

785

VHS

8:38 minutes

This video will make you aware of some of the hazardous substances common to construction jobsites and educates you about proper handling procedures, use, and storage of these substances in the workplace. It also outlines what should be included in a complete hazard communication program.

HAZARD COMMUNICATION

741

CC/ VHS

13:20 minutes

Step-by-step program emphasizes the right-to-know compliance for all employees. Train employees on the hazard communication requirements, including common terms and how to prevent exposure. Labeling systems and material safety data sheets. Safe handling of hazardous materials. Differences between common hazardous materials. How to reduce or eliminate exposure.

**HAZARD COMMUNICATION EMPLOYEE TRAINING:
WHAT'S WRONG WITH THIS PICTURE**

150

CC/ VHS

17:00 minutes

Examples of correct and incorrect chemical safety procedures are reenacted in a wide variety of work settings. Technical terms found on labels and Material Safety Data Sheets are clearly explained with interesting demonstrations.

HAZARD COMMUNICATION FOR CONSTRUCTION

724

CC/ VHS

12:00 minutes

Outlines how to control chemical hazards on the construction site by using the Hazard Communication Standard. Includes recognizing potential construction site hazards, safety precautions and equipment, and written hazcom program.

HAZARD COMMUNICATION A HEALTHY RESPONSIBILITY **236** **CC/Sp/VHS**
19 minutes

NEW-

HAZARD COMMUNICATION FOR PUBLIC EMPLOYEES **925** **CC/Sp** **DVD**
15 minutes

It's safe to be informed, especially on dangerous chemicals. This important training program will provide your employees with elementary knowledge of substances, what they are and how to work with them safely. With this resource, you can comply with OSHA standard 1910.1200 and keep all your workers safe.

- Physical and health hazards
- How exposure occurs
- PPE
- MSDS

NEW-

HAZARD COMMUNICATION RIGHT-TO-KNOW **924** **CC/** **DVD**
10 minutes

Comply with retraining requirements for 1910.1200 and give your employees a clear message: "Don't neglect chemical dangers on the job!"

HAZARD COMMUNICATION: THE ROAD TO SAFETY **712** **CC/Sp/VHS**
16:00 minutes

Help employees identify hazards. Topics include: Identifying potential hazards, Warning labels, Material Safety Data Sheets (MSDS).

HAZARD COMMUNICATION: SIGNS OF SAFETY **812** **CC/Sp/VHS/DVD**
13:00 minutes

Facilitator's Guide included.

Keep your employees safe and well educated about chemical hazards with this video. Your employees will learn: labeling systems and material safety data sheets; safe handling of hazardous materials; differences between common hazardous materials; and how to reduce or eliminate exposure.

HAZARD RECOGNITION: OUT OF THE ORDINARY **817** **Sp/VHS**
Spanish only **820** **Sp/VHS**

12:50 minutes

This video uses optical illusions to capture the audience's attention and applies the principles of observation to train your employees to recognize and respond to hazards in the workplace. After they learn how to recognize potential hazards, they can be trained to eliminate incidents and accidents. This video educates workers about different types of hazards commonly found in the workplace. This video also demonstrates how workers should use all of their senses to recognize and prevent hazards.

HEALTHCARE ERGONOMICS: WORKING TO YOUR ADVANTAGE

771 CC/ VHS

21:00 minutes

Cumulative trauma disorders are the fastest growing category of occupational injuries in the United States. This program will help you identify ergonomic hazards in your work area and focuses on the prevention of the most common injuries you will face as a healthcare worker.

Topics include:

- Recognizing cumulative trauma disorders
- Preventing back injury
- Identifying ergonomic hazards

HEARING CONSERVATION: WHAT DO YOU WANT TO HEAR?

234 CC/Sp/VHS/DVD

15:50 minutes

Facilitator's Guide included.

Each year thousands of workers suffer irreversible, noise-induced, hearing loss in the workplace. Most are the result of cumulative exposure to high levels of noise. Learn to prevent hearing loss and the associated costs at your company by creating an awareness and respect for noise hazards and motivating employees to protect their hearing. Hearing loss is 100% preventable.

NEW-

HEARING PROTECTION: IT MAKES SENSE

943 CC/Sp/VHS/DVD

22:00 minutes

Don't let employees run the risk of losing their hearing. Teaches employees how the noise at work can be controlled and how they can protect themselves from hearing loss. Includes: the human ear, preventing hearing loss, audiometric testing, engineering and administrative controls, and PPE.

NEW-

HEARING PROTECTION: SOUNDS GOOD TO ME

942 CC/Sp/VHS/DVD

Noise-induced hearing loss creeps up on you. There are no signs – no pain. This DVD will show you how to work with your employer to safeguard one of your most important senses. You will learn how noise exposure affects your hearing, and how, when, and where to use hearing protection.

HEAT STRESS

791 VHS

17:00 minutes

After viewing this video you will be able to explain: How heat affects the body and can lead to heat stress; how to prevent and treat symptoms of heat rash and heat cramps; Why symptoms of heat exhaustion and heat stroke are so dangerous and how employees should respond to victims with these symptoms; why it is important to become acclimated to hot work environments; and what general precautions everyone can take to help prevent heat stress.

HEXAVALENT CHROMIUM AWARENESS

913 CC/Sp/ DVD

17:00 minutes

OSHA has revised its standard concerning permissible exposure limits for HexChrom. Make sure your workplace is up to date and your workers are aware of the risks of exposure to and the

health hazards associated with HexChrom. Protect your workers from lung cancer, permanent eye damage and skin ulcerations with this new, high-impact training program.

HIGH IMPACT: “QUALIFIED” ELECTRICAL SAFETY 20:00 minutes This dynamic video shows viewers that a commitment to electrical safety is the key to maintaining an injury-free workplace or even saving one’s life. Filled with re-creations of actual accidents from OSHA files, this film has proven to be a highly effective training tool through its scared-straight, graphic nature. Includes electrical shock, burns, and arc flash.	894	CC/	DVD
HIGH IMPACT: FORKLIFT SAFETY 19:00 minutes This dynamic video shows viewers that a commitment to forklift safety is the key to maintaining an injury-free workplace or even saving ones life. Filled with re-creations of actual accidents from OSHA files, this film has proven to be a highly effective training tool through its scared-straight, graphic nature.	796	CC/	VHS/DVD
HIGH VOLTAGE SAFETY: SAFE WORK PRACTICES 14:51 minutes	860	CC/	VHS
HOISTS & SLINGS 14:45 minutes Hoists and slings create the potential for serious accidents. This video will assist in training workers on proper sling inspection, selection and use to prevent material lifting accidents at your site. Types of hoists featured include: hand operated; air or electric powered wire rope; electric chain operated; and vacuum powered.	756		VHS
HOUSEKEEPING: IT AIN’T LIKE THE MOVIES 15:00 minutes Review importance of good housekeeping and what to look for in your facility. Topics: Clean or clutter, proper storage, eliminate spills, and leaks.	706		VHS
HUMAN BEHAVIOR: REDUCING UNSAFE ACTS 15:00 minutes	201		VHS
I CHOSE TO LOOK THE OTHER WAY 12:00 minutes This video tells the story of an employee who failed to speak up when witnessing an unsafe act and by choosing to “look the other way,” he allowed the needless death of a co-worker to occur. This powerful program shows how "speaking up" about unsafe acts can save lives and help to develop a positive safety culture.	778	CC/	VHS/DVD
IN THE BLINK OF AN EYE	843		VHS
INCIDENT INVESTIGATION 16:25 minutes Trains your employees how to conduct the step-by-step procedures to investigate accidents and near misses.	697		VHS

INDUSTRIAL ERGONOMICS**899 CC/ DVD**

15:00 minutes

Most of the time, individual workers cannot do much about designing equipment or tools. Training, however, can prevent injuries that are a result of an improper fit between the person and the job. This live-action program covers several aspects that include learning about human body mechanics, how to work with equipment and tools designed for most people, and how to apply sound ergonomic principles to prevent fatigue, stress and injury while working in an industrial environment.

INDUSTRIAL HOUSEKEEPING**516 VHS**

16:00 minutes

The cycle of unpleasant, dangerous and unproductive consequences of poor housekeeping on and off the job can be broken for all employees as it was for the three manufacturing employees in the program who learned to:

- Limit work and production supplies to work areas.
- Keep walkways and working surfaces clean.
- Clean up spills immediately.
- Store tools properly.
- Store/dispose of flammable/combustible materials.
- Practice other techniques for preventing unsafe conditions.

INFECTION CONTROL: Q & A**841 VHS**

18:31 minutes

INNER MIND OF MILTON WHITTY, THE**173 VHS**

18:30 minutes

An award winning film which depicts the contractor whose poor safety record is exposed in a scene in the court of his own conscience. *For management.*

NEW-**IT ONLY TAKES A SECOND****928 CC/ DVD**

Viewers won't forget the powerful accident re-enactments and dramatic consequences illustrated in this motivational video. It's a great opener for any safety topic!

**IT WON'T HAPPEN TO ME:
ACCIDENTS IN THE WORKPLACE****622 VHS**

15:00 minutes

Discusses the major factors that cause accidents and why people take safety risks.

JUST THAT ONE TIME**675 VHS**

15:15 minutes

Some people are chronic risk-takers. Others behave dangerously just one time. But the end results can be just as disastrous, as this film shows.

KEEPING YOUR MIND ON THE JOB**676 VHS**

11:52 minutes

One of the causes of accidents is inability to concentrate. Lack of concentration affects factory workers, secretaries, executives, etc. Illustrates how concentration can really work.

KITCHEN KNIVES: SAFE & EFFICIENT USE 10 minutes	748	VHS
LADDER SAFETY 12:00 minutes Educate about ladder safety. Choosing a ladder - consider task, weight, capacity and composition. Inspection of rungs, safety feet, and moving parts. Extension fixed and step ladder tips, 4-1 rule. Safe climbing tips, belt buckle rule. Ladder accidents - encourage first aid.	711	VHS
LADDER SAFETY 8:20 minutes	922	VHS
LADDER SAFETY: TAKE THE RIGHT STEPS 15:00 minutes Detective Joe Monday is on his way to help you promote safety.	623	VHS
LASER SAFETY 15:00 minutes Lasers are frequently misunderstood and misused. This video dispels the myths about lasers and teaches employees how to safely operate and work with all types of lasers. Workers will learn how to safely work with industrial lasers, including: <ul style="list-style-type: none"> • Types of lasers and their classifications. • Potential hazards when working with lasers. • Proper eyewear protection for laser operations. • Preventing secondary injury from indirect exposure. 	754	VHS
LEAD SAFETY 18:00 minutes Employees are trained in the proper awareness of lead, its health effects and the use of safe procedures when contacting lead.	180	VHS
LEAD SAFETY 10:37 minutes This is ideal for construction, chemical, manufacturing, petroleum, maintenance, and utility employees exposed to lead on the job. Filmed in multiple industrial and construction locations, this program motivates workers to follow best safety practices that reduce the concentration of airborne particles and eliminate the potential for overexposure. Video covers: how lead enters the body, effects of overexposure, preventative measures and safe work practices, requirements for regulating an area, and why and how preventive measures/controls are used.	910	CC/Sp/ DVD

NEW -

LEAD SAFETY ON THE JOB This program helps your facility comply with OSHA's Lead in Construction Standard (1926.62). It examines the ways lead can enter the body, its symptoms, and its effects. Protect yourself and your employees from dangerous lead exposure. Information includes: <ul style="list-style-type: none"> • Inhalation and ingestion • Health risks • Blood lead level (BLL) 	927	CC/Sp/ DVD
---	------------	-------------------

- Action level vs. permissible exposure limit (PEL)
- Engineering, work practice, and administrative controls
- Work management practices

LEAD - TREAT IT WITH RESPECT

235 CC/ VHS

17:00 minutes

Teaches your employees how to recognize and reduce exposure to lead, lead's long term health effects, how lead enters the body and what employees can do to protect their families.

LESSONS FROM GROUND ZERO: EMERGENCY ACTION PLAN

777 CC/ VHS

29:00 minutes

This video introduces some of the experts who were called on to protect the dozens of rescuers working in potentially deadly conditions at Ground Zero. It shows how a well-conceived Emergency Action Plan helped avoid the loss of additional lives during the rescue and cleanup efforts. Workers will learn about:

- Proper emergency site control.
- Safe crane and hoisting operations.
- Importance of proper PPE and respiratory protection.

LESSONS FROM GROUND ZERO: EVACUATION

776 CC/ VHS

23:00 minutes

This video provides first-hand accounts from those who experienced the World Trade Center evacuations in February 1993 and September 2001. It shows how critical changes implemented after the 1993 bombing expedited the evacuation on September 11th, and allowed more than 18,000 people to evacuate in less than two hours — four hours faster than in 1993. Hear about the:

- Importance of evacuation plans and fire drills.
- Proper use of fire extinguishers.
- Necessity of working radios, operational flashlights, fully stocked first aid kits and accurate building maps.

LESSONS LEARNED FROM AN ARC FLASH TRAGEDY

801 VHS

19:00 minutes

In this video your employees will learn lifesaving lessons about understanding all hazards of a job task and taking the necessary precautions to protect yourself. Topics include always following safe electrical work practices, the dangers of complacency when performing electrical work and the purpose of an arc hazard analysis. It will also explain the reason for arc flash regulation and the various clothing and personal protection required by hazards zero through four.

LIFE & DEATH: ELECTRICAL SAFETY

893 CC/ DVD

19:00 minutes

This video has a very unique approach where it starts on the scene of an accident and works backwards. With the characters and audience playing the part of an accident investigator, they use the clues to solve the mystery of how the incident occurred. This film has proven to be a highly effective training tool through its scared-straight, graphic nature.

LISTENING SKILLS

532 VHS

4:09 minutes

LOCKOUT / TAGOUT OF ENERGY SOURCES

714

Sp/VHS

(Spanish Version Only)

27:00 minutes

Help your company comply with OSHA 1910.147 and avoid catastrophic accidents. Topics include: hazards of uncontrolled energy, when to lock and tag, Equipment shutdown and isolation, control of stored energy.

LOCKOUT / TAGOUT: AN OPEN AND SHUT CASE

911

CC/Sp/

DVD

14:00 minutes

Reinforcing the basics of lockout/tagout will help you comply with OSHA's 1910.147 standard and avoid catastrophic accidents.

- What lockout/tagout is and when to perform it.
- OSHA's six steps to controlling hazardous energy.
- OSHA's three steps for the safe restoration of energy.

LOCKOUT / TAGOUT PROCEDURES

543

VHS

22:00 minutes

Many tragic on-the-job accidents occur because proper lockout procedures are not followed in repairing and adjusting equipment.

LOCKOUT / TAGOUT: REAL, REAL LIFE

912

CC/Sp/

DVD

18:00 minutes

Be sure your employees are familiar with safe locking and tagging practices with this training program. This program will keep in you in compliance with OSHA's Lockout/Tagout standard. Topics include: Awareness, attitude, action, when, where, why, and proper lockout/tagout procedures.

LOMBARDI: COMMITMENT TO EXCELLENT

294

VHS

20 minutes

Motivational message by the late Vince Lombardi, NFL coaching great.

MACHINE GUARDING

720

CC/

VHS

14:00 minutes

Workplace injuries and deaths occur because a machine was never safeguarded or the guard was removed. Workers must understand and use the best form of protection - machine safeguarding. This video includes the following topics: categories and types of machine guarding; explanation of how machine guarding works; importance of safeguarding; places where most machine hazards occur; and safety control devices.

MACHINE LOCKOUT: CONTROLLING HAZARDOUS ENERGY

553

VHS

MACHINERY & MACHINE SAFEGUARDING

Spanish only

798

Sp/VHS

799

VHS

18:00 minutes

Safeguards are essential for protecting workers from needless and preventable injuries such as crushed hands and arms, severed fingers, and blindness. Safeguarding is the application of safety, engineering, work practices and administrative controls to prevent injury to employees

who operate machines or who are in the vicinity of machine operations. This program covers the many ways to safeguard machinery and shows a wide variety of machine safeguarding techniques available.

MAKE IT SAFE

743

Sp/VHS

An injury prevention program for Hispanic farm families covering:

- Emergencies. Identify emergency situations & basic steps for handling emergencies effectively and efficiently.
- Safety Around Animals. Learn to identify different types of dangers associated with both tame & wild animals.
- Human Factors. Promote positive safety attitudes and behaviors through interactive instruction on basic injury control principles.
- Signs & Symbols. Identify and understand the meaning of safety signs and symbols.

MAKING OF JSA, THE: JOB SAFETY ANALYSIS

730

VHS

16:00 minutes

Supervisors or safety team members will appreciate this lighthearted approach to learning about how to conduct a JSA. Topics covered are criteria for selection, breaking the job into steps, identifying the hazards for each step, and developing procedures to eliminate hazards.

MATERIAL SAFETY DATA SHEETS: READ IT BEFORE YOU NEED IT

718

CC/Sp/Video/DVD

20:00 minutes

This video will help your employees use and understand the MSDS and in so doing help to control the chemical hazards. Topics include: product information; exposure situations; hazard prevention and personal protection; toxicology, ecology and disposal; transportation; and regulatory information.

MECHANICAL POWER PRESS SAFETY: DON'T PRESS YOUR LUCK

721

VHS

19:00 minutes

This video will motivate your workers to follow proper safety procedures, help you comply with mechanical power press safety regulations and review safety tips for operators. Topics include: types of presses; safeguarding devices; safely operating a press; and inspections and maintenance.

METHYLENE CHLORIDE INFORMATIONAL VIDEO

844

VHS

12 minutes

MIOSHA: YOUR WORKPLACE PARTNER ONSITE CONSULTATION SERVICES

744

VHS

12:00 minutes

This video, produced by MIOSHA Occupational Health and Safety Education and Training Divisions, features six Michigan companies who have successfully used MIOSHA onsite consultation services. An effective safety and health program can help you prevent injuries, illnesses and accidents - and at the same time, help save you money. The onsite consultation program is part of a complete series of MIOSHA services to help companies with their safety and health practices.

MRSA AWARENESS

926

CC/Sp/

DVD

There is widespread concern over the risk of exposure to the deadly MRSA infection. This staph infection is not confined to hospitals anymore and has become a new threat known as community-associated MRSA. Help your employee protect themselves and their families with the information on how exposure occurs and the best ways to protect themselves in this timely training program. Includes:

- What is MRSA
- How is it spread
- Symptoms of infection
- Prevention exposure

NO INJURY NO ACCIDENT

505

CC/

VHS

15:00 minutes

Zeros in on an often neglected safety area - near misses and insignificant incidents that result from unsafe acts and conditions that can cause major accidents and serious injuries.

NOISE INDUCED HEARING LOSS: NO SECOND CHANCE

195

CC/

VHS

20:00 minutes

Features interviews with employees suffering hearing loss to send a powerful message to workers on wearing hearing protection. Explains the ear, effects of noise exposure and the steps to an effective hearing conservation program.

NURSING HOMES: HAZARDS & SOLUTIONS

762

CC/

VHS

16:00 minutes

This video discusses the ergonomic hazards, primarily back injuries, associated with resident transfers. Techniques to minimize resident transfer hazards to both the nursing home resident and to the nursing home employee are provided. The video also describes OSHA's strategic plan for reducing injuries and illnesses in long-term care facilities.

OFFICE ERGONOMICS: IT'S YOUR MOVE

760

CC/

VHS

16:00 minutes

Most employees do not associate the office environment with risk of injury. Yet musculoskeletal disorders (MSDs) are the fastest growing workers' compensation cost for businesses. The goal of ergonomics is to fit the job to the worker, not the worker to the job. Superior, high-resolution graphics help explain how the musculoskeletal system works and how to limit injury. This video identifies:

- Causes and types of MSDs
- Proper posture and body mechanics
- Workstation design factors.

OFFICE ERGONOMICS TODAY

824

CC/

VHS

18:15 minutes

The techniques and best safety practices featured in this program will teach your workers the causes of Musculoskeletal Disorders (MSDs) and motivate them to follow safe work procedures to reduce their exposure to risk factors. The training covers: definition of ergonomics,

ergonomic risk factors, recognizing and respecting early warning signs, proper posture, and effective ways to prevent injuries.

ON THE ROAD: THE LIGHTER SIDE OF LIFTING

889 CC/ DVD

21:00 minutes

Follow Mike Melnik as he takes you on a trip and demonstrates how to lift in the real world. A refreshing departure from traditional videos, this program uses humor to effectively teach safe body mechanics in real-life situations. It teaches viewers how to choose the "right lift" and apply these back safety principles in a variety of lifting situations.

OPENING PROCESS SYSTEMS:

716 VHS

PART I – PLANNING AND PREPARING

16:50 minutes

Provides an understanding of the hazards of opening process systems, and the importance of planning and preparation in the prevention of line or vessel opening accidents and injuries. Topics covered include identifying the contents of a process line or vessel, developing a thorough plan for safely performing each step in the line or vessel opening procedure, and determining the need to use recommended personal protective equipment.

OPENING PROCESS SYSTEMS:

717 VHS

PART II – PERFORMING THE WORK

15:00 minutes

Provides an understanding of the hazards of opening process systems, and the importance of planning and preparation in the prevention of line or vessel opening accidents and injuries. Topics covered include performing system shut down, lockout procedures, depressurization, draining and purging, isolating the work zone, obtaining the necessary permits, safely opening the system, performing the work and closing the line or vessel.

OPERATING A FORKLIFT SAFELY

713 Sp/VHS

(Spanish Version Only)

17:00 minutes

Basic operating techniques and specific lifting procedures are covered. Determining lifting capacity, Pre-operation inspection, Basic operating techniques, Basic battery and propane use.

OPERATING FORKLIFTS SAFELY

895 CC/ DVD

20:00 minutes

Forklifts are basically simple machines, but they are also massive and powerful. If they aren't operated safely, the results can be devastating. While there are a lot of potential hazards associated with operating a forklift, you can avoid incident and injury by knowing 1) how your forklift operates, 2) how to safely carry your loads and 3) how to follow the rules of the road. This program provides viewers with the basic information they need to know regarding these three areas of forklift safety.

OSHA/VPPA MANAGEMENT GUIDELINES COURSE SEG. 1-4

850 VHS

OXYACETYLENE SAFETY: REVISED

695 VHS

25:00 minutes

Shows the importance of following basic safety rules when working with oxyacetylene mixtures. Ten rules of oxyacetylene safety are given and illustrated. The program also demonstrates the serious dangers and effects of misuse of oxyacetylene equipment.

PAPER MACHINE SAFETY

807

VHS

25:00 minutes

This video covers job safety analysis, ladders, ramps, and catwalks. It will discuss nip point, loose clothing, and hair. Trip hazards, maintenance work, PPE, chemical hazards, noise, signage, and safety lock procedures are talked about. It will also cover confined space, welding and cutting and fire prevention procedures.

PARTY'S OVER DRINKING & DRIVING, THE

856

VHS

22 minutes

PERFORMING JOB SAFETY HAZARD ANALYSIS

501

VHS

19:00 minutes

Training guide and video to enable supervisors and team leaders to take a practical, systematic approach to managing health and safety.

PERMIT REQUIRED CONFINED SPACE ENTRY

519

VHS

21:20 minutes

Protect your health and safety with proper training and by following safe work practices. Learn to control a permit-required confined space environment and prevent accidents which could lead to injury or even death.

NEW-

PERSONAL FALL PROTECTION: ONE STEP BEYOND

940

CC/Sp&P/VHS/DVD

13:00 minutes

This video reviews personal fall protection systems and anchorage equipment to protect workers from fatal falls. Rescue procedures after a fall are also covered. Includes: personal fall protection systems; lifelines, snaphooks, and harnesses; rescue; and equipment care and inspection.

PERSONAL PROTECTIVE EQUIPMENT: CREATE THE BARRIER

816

CC/Sp/VHS/DVD

12:00 minutes

This video addresses the issue of why PPE is so important. The unique approach we use in this program of best safety practices is sure to have your workers talking for months. This program covers:

- Hazard assessment
- PPE selection
- PPE fit
- Proper care and use of PPE.

PERSONAL PROTECTIVE EQUIPMENT: CREATE THE BARRIER

821

CC/Sp/VHS

(Spanish version only)

12:00 minutes

This video addresses the issue of why PPE is so important. The unique approach we use in this program of best safety practices is sure to have your workers talking for months. This program covers:

- Hazard assessment
- PPE selection
- PPE fit
- Proper care and use of PPE.

NEW-

PERSONAL PROTECTIVE EQUIPMENT: REALITY IN THE PUBLIC SECTOR

12:00 minutes

930 CC/Sp/ DVD

Trends may come and go, but safety will not. All the time, every time, public sector employees must wear their PPE. They face a lot of risks and must be prepared. Otherwise, the results can only be tragic. Give them a first-hand look at the consequences of not wearing PPE, through a worker's recounting of his accident. Stress the importance of using protective equipment. Covers:

- Wearing the right PPE for the job
- The importance of PPE
- Employer's and employee's responsibility
- Care and maintenance
- Different types of PPE.

PLAY IT SMART, PLAY IT SAFE

851 VHS

POWER AND HAND TOOL SAFETY

668 DVD

23:00 minutes

Presents potential dangers of not using tools safely, methods of selection and inspection of tools.

POWERED HAND TOOL SAFETY: HANDLE WITH CARE

919 CC/Sp/ DVD

20:00 minutes

Show your employees the benefits of working safely with power tools – on and off the job. This program explains the dangers of powered hand tools and offers training that follow the outline “avoid, protect, and defend.” Topics include: Avoiding dangers, staying out of the way of tools, proper use of PPE, pre-use inspection of tools, and good housekeeping.

POWER LINE HAZARD AWARENESS

753 VHS

19:18 minutes

A video version of the Power Line Hazard Awareness Guide that explains the dangers of power lines and how to recognize and avoid power line hazards while on the job.

POWER PRESS SAFETY

780 CC/ VHS

11:00 minutes

Use this Power Press Safety program to help eliminate power press injuries and incidents at your site. Teach your workers proper awareness and respect for the potential hazards of working with or around power presses. While the power press is an extremely useful machine, it is one that requires strict attention for safe and efficient operation. This thorough and effective program will teach your workers:

- Basic operations of power presses.

- Safety measures for point of entry.
- Importance of machine guards and engineering controls.
- Best safety practices.

PREVENTING HEARING LOSS

200

VHS

11:00 minutes

Educates employees about risks to their hearing. Explains how excessive sound levels can damage hearing, how to protect your hearing from damaging sound levels and steps to take if a worker experiences symptoms of hearing loss.

PREVENTING MACHINE INJURIES (KITCHEN SAFETY)

752

VHS

10:00 minutes

Kitchen Safety Series. This video looks at the different machines found in an industrial kitchen. It also shows safety training and demonstrates safe work practices.

PREVENTING MOTOR VEHICLE COLLISIONS: IT ALL RIDES ON YOU

835

CC/

VHS/DVD

22:00 minutes

In this motivating program, EMT/firefighter Martin Lesperance recalls the stories of the collision scenes he has attended to illustrate the consequences of the six most common driving errors. Stressed during the presentation is the point that most of these incidents were not accidents - they were actually predictable and preventable events that didn't have to happen. Viewers will learn the horrific consequences of motor vehicle collisions and understand the importance of a 100% commitment to safe vehicle operation.

PRO-ACTIVE SAFETY ATTITUDES: TARGET ZERO

840

VHS

16 minutes

Zero accidents in the workplace is a possibility and it all starts with a vision, according to astronaut Buzz Aldrin who sees pro-active safety as the way it can be done. This program includes accident prevention, building trust, and maintaining leadership.

PROCESS SAFETY MANAGEMENT

704

VHS

18:00 minutes

This vital video program will help supervisors comply with OSHA's process Safety Standard. It covers crucial compliance information and training requirements. Such as; explanation of OSHA standard, employee participation, compliance audits, and emergency response and follow-up.

PROCESS SAFETY MANAGEMENT: IT'S JUST GOOD BUSINESS

715

VHS

30:00 minutes

Addresses application, threshold quantities of certain chemicals, reviews each of the fourteen key sections of the process safety management standard.

PROMISES, PROMISES

800

CC/

VHS

14:00 minutes

This video features the stories of three families whose hopes and dreams are shattered by poor safety choices involving:

- Pedestrians around moving forklift traffic.

- Lockout/Tagout.
- Seatbelt and cell phone use while driving.

PROTECT YOUR SIGHT

678

VHS

15:00 minutes

Eye safety can't be emphasized enough. This is a film that adds importance to all the eye safety concerns you have been talking about.

PUBLIC ASSEMBLY FIRE SAFETY

692

CC/

VHS

14:00 minutes

Features footage from fire emergencies where many people were confronted with life or death choices en route to their escape from burning structures. Emphasizing the responsibility that organizations have to prevent fires, protect exits and plan evacuations, the video offers employees and managers a unique view of tragedies that could have been prevented with proper training and practice.

PULP PREPARATION SAFETY

808

VHS

25:00 minutes

This video discusses chemical handling, PPE, MSDS, lifting and heat stress. Other topics covered include back injuries, slip and trip hazards, log handling, debarking and the hazards of testing and sampling.

REMEMBER CHARLIE

745

Sp/VHS/DVD

(Spanish only)

819

Sp/ DVD

56:49 minutes

A deeply moving portrayal of the devastating real-life consequences of the abuse of safety procedures. Designed to motivate audiences to handle all aspects of their lives with greater awareness and appreciation of safety. Learn to become more responsible for your own safety on the job, at home, and at play. Dramatically changes safety attitudes from uncaring, apathetic and routine to safety first & always.

REPEAT OFFENDER - AVOIDING CUMULATIVE TRAUMA

869

VHS

20:00 minutes

RESIDENTIAL FALL PROTECTION:

830

VHS

NAILING IT DOWN

Spanish only

831

Sp/VHS

17:00 minutes

This video covers several items that are important to residential fall protection, including: hazard controls, management controls, personal protective equipment, working safely from ladders and the inspection, cleaning and storing of PFAS systems.

RESPIRATORY PROTECTION

898

CC/Sp/

DVD

13:00 minutes

Breathing - it's something we all do all the time, without even thinking about it. Most of the time we don't have to because the air around us is safe, but when we are on the job we could run into situations where it could damage our bodies or even be fatal. In times like these, we need to take personal responsibility for our safety, and that means using respiratory protection. This video alerts workers to the importance of protecting their respiratory systems and provides them with helpful tips for using and maintaining respirators properly. Topics include types of respiratory

hazards, selecting the appropriate respirator and using respirators in emergencies. Fitting, cleaning, disinfecting and storing respirators properly are other topics covered.

RESPIRATOR SAFETY (Revised)

215

VHS

16:00 minutes

Explains what kinds of respiratory hazards a worker might face and why these hazards require protection. Discusses the importance of wearing respirators when required.

RESPIRATORY PROTECTION: ANOTHER WORLD

211

CC/

DVD

19:00 minutes

Instructs workers on how to avoid exposure to airborne hazardous substances that can lead to serious health effects through the use of respiratory protection.

RESPIRATORY PROTECTION: THE INVISIBLE HAZARDS

239

VHS

13:20 minutes

An overview of the respiratory system, how it works and how it can be damaged. Specific hazards are addressed and preventative measures to safeguard your respiratory system. The program covers:

- The importance of the respiratory system.
- How potential hazards can affect workers' health and safety.
- Types of respirators and their functions.
- Importance of qualitative and quantitative fit testing.

RESPONSIBILITY TO ACT

691

VHS

22:14 minutes

A true, tragic story of a school fire. The viewer sees how any one of many people could have RECOGNIZED hazards and then TAKEN ACTION to prevent the tragic outcome - but they didn't! Learn a four-step process - SEE, QUESTION, REASON, ACT - which is applied to office and industrial hazards in the video. At the end, employees will recognize their own "Responsibility to Act".

RETURN OF MILTON WHITTY

216

VHS

16:41 minutes

An award winning film. A dynamic and forceful sequel to "Inner Mind of Milton Whitty" film.

**RIGGING AND LIFTING WITH MOBILE
CONSTRUCTION EQUIPMENT**

738

VHS

27:30 minutes

Practical advice and real-world cautions on how to do on-site lifting jobs safely.

Operator/Rigger teamwork, Analyzing the load, Determining proper rigging, How to figure and adjust for center of gravity on odd shape loads, Effects of various type hitches and angles on sling strength.

RIGGING SAFETY

818

VHS

12:30 minutes

You will find in this video, 11 interactions in three lessons that ensure your riggers are properly trained on all aspects of their job. Prevent accidents and property damage with this training program. The program covers:

- The role of the rigger.
- Types of slings.
- Safe work practices.

RISKY BUSINESS (OFFICE SAFETY)	682	VHS
19:00 minutes		
Offices are not necessarily safe environments. Hazards in offices are exposed in an entertaining but very informative format.		
ROOFER'S PITCH	218	VHS
21:30 minutes		
This is a movie dealing with the roofing industry, showing pre-job planning and education for roofers.		
SAFE RIGGING	731	VHS
20:00 minutes		
Explains the procedures involved in rigging for a safe lift. Emphasizes the importance of paying attention to the rated capacity of all lifting equipment and explains variables that can make the difference between a successful lift and disaster.		
SAFE USE OF HYDRAULIC BREAKERS, SHEARS AND CRUSHERS	737	VHS
17:30 minutes		
How to use impact breakers, metal shears and concrete crushers from pre-operation inspection to long term storage. How to conduct daily pre-start inspection. Checking the tool suspension system. Correct tool selection for the job. Carrier machine positioning when working with a breaker. Tool point types and applications.		
SAFETY 101: HEARING PROTECTION: SOUNDS GOOD TO ME	769	CC/ VHS
14:00 minutes		
This program covers the importance of proper hearing protection. It will discuss personal protective equipment; the effect noise has on our ears, and controlling harmful noise.		
SAFETY - EVERYONE'S RESPONSIBILITY SAFETY	755	VHS
48 minutes		
SAFETY IN A CONFINED SPACE	520	VHS
6:52 minutes		
Explains procedures for maximum safety in a grain elevator permit required confined space; includes a checklist of necessary measures, confined space safety concepts and training requirements.		
SAFETY IN THE RETAIL WORKPLACE	688	VHS
25 minutes		
SAFETY ORIENTATION "IT BEGINS WITH YOU"	814	CC/ VHS
Spanish only	822	CC/Sp/VHS
16:05 minutes		

Helps develop a respect and understanding for potential hazards found on the job by explaining to your employees that safe work practices and procedures are established for their safety. This video addresses a wide range of safety topics:

- Personal protective equipment
- Good housekeeping procedures
- Hazard communication
- Ergonomic awareness
- Emergency evacuation procedures
- Chemical safety
- Signs, placards and labels.

SAVING SIGHT **607** **VHS**

19:00 minutes

Motivates employees to use proper eye protection through demonstration of eye injuries and demonstration with doctors concerning accident causes.

SCAFFOLDING SAFETY **727** **VHS**

15:00 minutes

Covers requirements for erecting, dismantling and maintaining scaffolds. Includes potential hazards, types of scaffold, ladder construction and, assembly and dismantling requirements.

SCAFFOLD SAFETY: IT'S NO JOKE **733** **VHS**

16:50 minutes

Reviews the safety requirements which apply no matter what type of scaffold in being used. Examines who can design and build a scaffold, things to look for before getting on a scaffold, fall protection and general safety procedures. Highlights setting up a scaffold, defective or damaged ropes or planks, use of substandard guardrails, working around overhead electrical lines, and overloading the scaffold.

SCAFFOLDS: SAFETY AT ALL LEVELS **732** **CC/Sp&P/VHS/DVD**

10:00 minutes

Covers the role of the competent person, pre-assembly inspection, assembly, pre-shift inspection, safe work practices, and fall protection.

SHAKE HANDS WITH DANGER **247** **VHS**

23:00 minutes

Servicing and maintenance work around heavy equipment and in the shop calls for close attention to the rules of safety. This video has a message for those working with heavy machinery and common shop tools.

SKIN CARE AND SAFETY **703** **VHS**

13:00 minutes

When it comes to dermatitis - and most other skin problems - prevention is much easier and far less painful than treating a full-blown skin problem. And prevention at work and at home is what this program is all about. Employees learn six important rules that will help them prevent skin problems:

- Be aware of skin hazards
- Be aware of environmental hazards
- Wear the appropriate personal protective equipment

- Handle chemicals with care
- Follow housekeeping and hygiene rules
- Get medical attention

SLIPS, TRIPS & FALLS: KEEPING A STEP AHEAD

767

VHS

13:40 minutes

SMALL SPILLS AND LEAKS

707

VHS

18:00 minutes

Focuses on controlling small spills and leaks. Covers essential procedures all employees should know if a leak should occur on their shift. Topics: Supervisor notification, Securing the area, PPE, Controlling and containing the spill, Cleanup/decontamination.

NEW-

STAIRWAYS AND LADDERS: THE FIRST STEP

939

CC/Sp/VHS/DVD

24:00 minutes

Routine use of stairways and ladders can lead to careless accidents. Review essential safety procedures with your workforce. This program offers important safety tips on using ladders properly and climbing stairs safely. The program includes: portable ladders, extension ladders, fixed ladders, safety on stairways.

STEP RIGHT UP

254

VHS

18:00 minutes

Ernie manages to violate nearly every safety rule concerning ladders. A funny, highly motivational video about ladder for home and industry.

STOCK & PULP PREPARATION SAFETY

809

VHS

25:00 minutes

This video talks of cutting scrap paper rolls, pulp prep including the PPE required. The proper handling of chemicals, unloading of bulk tanks, lab tech safety and QC safety are also covered. Maintenance issues such as cleanup are discussed and lifting techniques and some lock out issues are covered.

STREET SMART: DRIVING SKILLS

811

CC/

VHS

12:30 minutes

This informative program is essential for all employees who operate a motor vehicle on and off the job. This video covers:

- Why safe driving is important to you
- Your responsibility for safe driving
- Driving skills to reduce risk exposure.

STRETCHING OUT AT WORK

886

CC/

DVD

13:00 minutes

This motivational video helps reduce workplace injuries by demonstrating stretching and warm-up exercises on the job. Your employees will learn why it is important to stretch before, during and after working to maintain a healthy body.

SUBSTATIONS & SWITCHYARDS TRANSMISSION & DISTRIBUTION

854

VHS

SUPERVISING A DRUG FREE WORKPLACE 18:06 minutes	689	VHS	
TAKE ELECTRICITY SERIOUSLY – DEVELOPING AWARENESS 14:00 minutes Electrical incidents and injuries can happen to anyone - not just electricians - at work or at home. In fact, each year hundreds of deaths are caused by electrical hazards. And, electrical incidents cost millions of dollars in lost workdays and workers' compensation costs. Help prevent individuals from becoming injury statistics!	792	VHS	
TAKE FIVE: VIDEO SERIES VOLUME 1 & 2 40:00 minutes <ul style="list-style-type: none"> • Program 1 – Lifting • Program 2 – Ergonomics • Program 3 – Stretching • Program 4 – Sitting • Program 5 – Standing 	887	CC/	DVD
TAKING CONTROL OF YOUR MOTOR GRADER 19:00 minutes Modern motor grader controls and functions are shown in this video designed to improve operator skills.	740	VHS	
TECHNIQUES FOR AVOIDING BACK INJURIES 17:00 minutes Proper lifting techniques and posture techniques that reduce back strain; an overall wellness program.	608	VHS	
TEENS: THE HAZARDS WE FACE IN THE WORKPLACE 10:22 minutes This DVD introduces some typical safety hazards encountered on the job of nine high school students in the Boston area. The students discuss why safety is important, their rights under the law to work in a safe environment, and how to avoid getting injured on the job.	923		DVD
TORNADO: A SPOTTER'S GUIDE A guide for identifying tornadoes and the cloud structures that produce tornadoes.	513	VHS	
TORNADOES: BE PREPARED! 15:00 minutes Help employees become prepared for the uncontrollable power of tornadoes. This program helps employees understand the importance of taking lifesaving precautions and following proper procedures, including tornado alerts, safe versus unsafe locations, following your company's emergency plan, and safety in vehicles and at home.	896	CC/	DVD
TRAINING NETWORK, THE 18:31 minutes	237	CC/	VHS

Viewers won't forget the powerful accident re-enactments and dramatic consequences illustrated in this motivational DVD. It's a great meeting opener for any safety topic.

TRENCHING & EXCAVATION SAFETY	686	VHS
16:00 minutes Trenching and excavation accidents continue to cost workers their lives. Regulatory agencies target them for the most serious violation categories. Get a close look at methods for minimizing these hazards.		
TUBERCULOSIS (TB):	220	VHS
OSHA/CDC GUIDELINES FIRST RESPONDERS		
20:00 minutes Complies with OSHA's policies. Trains on symptoms and epidemiology of TB, risk groups, transmission, post exposure management and the exposure control plan including personal protective equipment and engineering controls. Geared specifically toward EMS.		
UAW RIGHT TO KNOW TRAINING PROGRAM	839	VHS
VAPOR DEGREASER		
7:46 minutes		
UNDERSTANDING THE ASBESTOS HAZARDS -	802	Sp/VHS
JANITORIAL VERSION		
(Spanish version only) 10:10 minutes This safety video uses multiple scenes from different building environments and shows how janitorial and other maintenance workers may be exposed to asbestos in building components. It covers, in detail, protective measures to reduce the amount of exposure and what to do if workers discover asbestos in their work environment.		
UNDERSTANDING ASBESTOS HAZARDS	803	CC/ VHS
MAINTENANCE VERSION		
11:00 minutes Motivate workers to use best safety practices when working with asbestos, by training with this thorough program. Using multiple scenes from different building environments, this program shows how janitorial and other maintenance workers may be exposed to asbestos in building components. It covers, in detail, protective measures to reduce the amount of exposure and what to do if workers discover asbestos in their work environment.		
UNDERSTANDING SAFETY AT WORK	880	CC/ DVD
24:00 minutes A-Z of workplace safety. The consequences of poor industrial safety practices can result in serious injury, increased absenteeism, sick days and even death. An organization can minimize the risk of accidents and incidents occurring by implementing appropriate safe work procedures.		
UNDERSTANDING THE ASBESTOS HAZARDS	105	VHS
21:05 minutes		

A dynamic and easy to understand program that has trained thousands of workers on awareness and abatement techniques. Live action footage of actual asbestos removal from steam pipes using glove bags as well as other large scale techniques.

UNDERSTANDING THE ASBESTOS HAZARDS

804

VHS

21:55 minutes

This program teaches workers about the potential hazards posed by asbestos-filled material such as ceiling panels, insulation and floor tiles, and trains them on how to reduce their exposure. All workers including janitorial and facility maintenance workers, who may be indirectly exposed need to know when building components might expose them to asbestos fibers.

VALVE SAFETY

757

VHS

15:00 minutes

Proper valve safety training can limit accidents and prevent injuries while saving time, money, and lives. This video emphasizes ergonomics and the best safety practices to prevent strains, sprains and incidents when operating valves. The following important information is covered:

- Recognizing different types of valves.
- Identifying common valve hazards.
- Step-by-step valve risk assessment.
- Ergonomic issues related to valve safety.
- Best safety practices for working with valves.

WELDING SAFETY “RESPECTING THE HAZARDS”

793

VHS

14:50 minutes

This program promotes an awareness and respect for the potential hazards of welding operations and explains ways to protect the health and safety of welders. Understanding and recognizing the potential hazards, inspecting the environment and equipment, and following proper procedures while welding are the keys to a safe and healthy welding environment.

WHEN FIRE STRIKES:

COMMERCIAL KITCHEN EMPLOYEES

693

CC

VHS

14:00 minutes

Encourages fire safety awareness and prevention in commercial kitchens by showing how attitude, prevention and reaction can control fires and their damage. Shows the roles of management and employees in fire safety and preparedness, and how a team approach makes kitchen fires less likely.

WHEN YOU LEAST EXPECT IT

879

CC/

DVD

19:00 minutes

This award-winning video stresses defensive driving attitudes as well as techniques. Dramatic auto accidents are executed by professional stunt drivers from the Joie Chitwood Thrill Show. This program provides positive reinforcements in a dramatic style! Include an excellent section on the importance of using seat belts.

WINTER DRIVING TIPS

687

VHS

17:00 minutes
